Awesome Nature Wallpapers-Control Panel 3. Awesome Nature Wallpapers-Instructions Eclipse color Themes is a popular theme pack for the Linux operating system. It has been designed to bring out the beauty of the various colors present in the environment. One of the characteristic features of this theme is the impact that the bright shades have on the other colors of the screen. The theme pack includes 10 beautiful wallpapers, with a resolution of 1280 x 800 pixels. Unfortunately, this theme pack is not well documented. As a result, users will have to use their imagination to figure out how to install and set up the theme pack. If you run into some problems during the process, then you can try to check the instructions included in the image file, and try to add or remove some of the images and set the options to suit your tastes. There are two categories: "Color" and "Non-color". The category "Color" is represented by a combination of the chosen color and a repeating geometric pattern. The "Non-Color" category includes just one wallpaper, and does not offer any particular feature. In addition, the remaining wallpapers can be set to change in a sequential or random order, so that they appear in a different order each time you start your computer. This option can be controlled at a user-defined time interval, by selecting a predefined value from the drop-down list. The application does not put a strain on the computer's resources, as it uses a very low amount of CPU and system memory. We did not experience any problems with the theme during our testing, such as making Windows hang, crash or
