YouTube Downloader displays in the main screen the ways in which you can save files, split into 'Download' and 'Online Video'. The former allows you to paste the targeted URL while the latter lets you use the built-in browser to access YouTube, Vimeo, Vevo, Hulu and other similar websites, locate the item, then grab it. Download YouTube videos effortlessly The 'Download' option informs you that you need to copy the movie's link from your web browser and click on the 'Paste URL' button. The program will automatically copy it from clipboard, allowing you to choose the preferred format (WEBM, MP4, FLV, and others) as well as the destination folder. The saved movies are listed in the 'Downloaded' section, enabling you to render them using the built-in player, rename or remove them from the list. At the same time, the search function lets you quickly locate an item in your list, based on a keyword. The 'Online Video' section lets you select the preferred website, with YouTube, Vimeo, Hulu, Vevo, Mtv, DailyMotion, TED and several other options to choose from. You also have the possibility of accessing a site that is not listed by Tenorshare Free YouTube Downloader. After identifying the video you want to save to your PC, you can click on the 'Download' button placed in the corner of all windows, opting for the preferred format and location on your system.
